RECENT EXPERIENCE

Senior Software Engineer

Square

Sep 2015 - Jan 2020 - 4 years 6 months

Square helps millions of sellers run their business- from secure credit card processing to point of sale solutions. I worked for 3 teams during my time at Square:

Point of Sale

2019 - 2020

Tech lead of "Itemized Refunds" project, which aimed at enabling multi-location sellers to easily manage and issue refunds at the itemized level on a bill.

Invoices

2016 - 2018

- Engineering lead of the growth team with a focus on running A/B tests, implementing a referral program to acquire new sellers, and optimizing product onboarding.
- Led a team of 3 front end engineers to revamp core product flow leading to 1.2% increase in gross payment volume(GPV) processed.

Online Store

2015 - 2016

- Technical lead for enhanced checkout flow project and led to 2% lift in GPV processed.
- Setup testing infrastructure for front-end code and added test coverage for critical parts of the system.

Front-End Technical Lead

LocBox

Apr 2013 - Aug 2015 - 2 years 6 months

Locbox built an omni-channel marketing tool for small businesses. It was funded by InterWest Ventures, Google Ventures and later acquired by Square.

- Tech lead of a team of 3 members for all front-end engineering and design focused projects.
- Developed hiring processes for engineering and design teams, leading to hiring of over 6 engineers and designers.
- Managed 4 design contractors to support the visual design of the product.

ENTREPRENEURIAL ADVENTURES

Book Producer

She Can You Can

May 2017 - January 2020

Maker of an alphabet book of iconic Indian women for children and educators looking for inspirational Indian female role models. Published by Harper Collins in India and MangoAndMarigold Press in US. Over 3,000 copies sold by 2019.

Co-Founder

Menstrupedia

August 2012 - October 2019

Co-Founder of Menstrupedia, an ed-tech company with a mission to help young girls learn about periods in a healthy manner. Bootstrapped to \$100k ARR
